Apps for Me

ingogo Is Coming Soon

With ingogo users can book a taxi, send their taxi receipts, and seamlessly upload them to their Concur expense accounts. Here are some of the ingogo features:

- Users can hail a taxi immediately or book a future pick-up straight from their mobile device.
- Get receipts automatically sent to your Concur.
- Auto-locates the current pick up address and guarantees a response time.
- Real-time updates of the driver's location.
- Direct voice contact with the driver.
- Pay with a mobile device.
- Active in Sydney, Melbourne and Brisbane

ingogo works with **Expense** for Concur Standard and **Expense** for Concur Professional. It will be available soon in the Concur App Center under **Apps for Me** at <https://www.concur.com/en-us/app-center>. For more information about ingogo, go to the ingogo website at <http://www.ingogo.mobi>.

Starbucks Is Coming Soon

With the Starbucks app users get their Starbucks rewards and their favorite way to pay either for business or pleasure. Users can link a Starbucks card from their wallet or their Starbucks mobile app to create their Starbucks Travel and Expense Card for use when they are travelling or holding meetings at a Starbucks store. The Starbucks app automatically sends each transaction to Concur as a Smart Receipt.

Starbucks will be available soon from the Concur App Center at www.Concur.com/AppCenter as a consumer app under **Apps for Me**. For more information, go to the Starbucks website at <http://www.starbucks.com/coffeehouse/mobile-apps>.

TripLog Is Coming Soon

An innovative, feature-rich mileage tracking app for Android and iOS devices, TripLog lets users automatically track their mileage and sync their data in real time. To initiate the app's GPS mileage

tracker, all they need to do is connect to their Bluetooth device and drive at a speed above the 5 mph threshold. TripLog does the rest and syncs the data between their mobile device and the Web instantaneously—even while users are offline.

And now with Concur integration, users can also track trip mileage, tolls, fuel, parking, and other expenses and upload them directly to their Concur Expense account, making expense reporting seamless and automatic. Once the connection between TripLog and Concur is enabled, users can:

- Access trips via TripLog and import receipt images directly to their Concur expense report.
- Automatically capture trips as Personal Car Mileage, and capture tolls, parking, and other expenses as QuickExpenses, along with accompanying receipt images.
- Record actual driving route and view it on Google Maps.
- Include units of measure, date format, and currencies for USA, Canada, UK, Australia, South Africa, and other 20 countries.

TripLog works with **Expense** for Concur Standard and **Expense** for Concur Professional. It will be available soon in the Concur App Center under **Apps for Me** at <https://www.concur.com/en-us/app-center>.
