Gett

Gett is a reliable, cost-effective way to travel via corporate black car or taxi. And now with the Concur integration, it's paperless too. Drivers operate in 57 cities worldwide and are vetted, licensed and fully insured. Plus, a guarantee that you'll always pay a flat rate regardless of rain, traffic or demand.

So whether you book a ride today or for two weeks from now, you're sure to get to your destination on time and hassle-free. To get started:

1. Download the Gett app on your iPhone or Android device.
2. Upon registering, go to 'Payment Settings' within the app and connect Gett with your Concur Expense account.
3. Book your black car or taxi through the app and easily track your ride's arrival.
4. Your e-receipt will be automatically sent to Concur and the info integrated into your expense report. It's that simple.

Join millions of passengers that have relied on Gett for safe, reliable business travel. Download the app today and expense your rides paper-free.

Gett works with Expense for Concur Standard and Expense for Concur Professional. It will be available soon in the Concur App Center under Apps for Me at www.Concur.com/AppCenter. For more information about Gett, visit their website at <http://gett.com/nyc/#business>.

Apps for Me Coming Soon

Canon

Canon's MAXIFY series inkjet Multi-Functional printers offer "Scan Receipt for Concur" as one of the applications available via the MAXIFY CLOUD LINK.

With MAXIFY printers and "Scan Receipt for Concur", you can easily turn paper receipts into scans and save them in your Concur account without using a computer.

You can access the app using the printer screen on your MAXIFY. You can also access MAXIFY CLOUD LINK using a smart-phone or tablet.

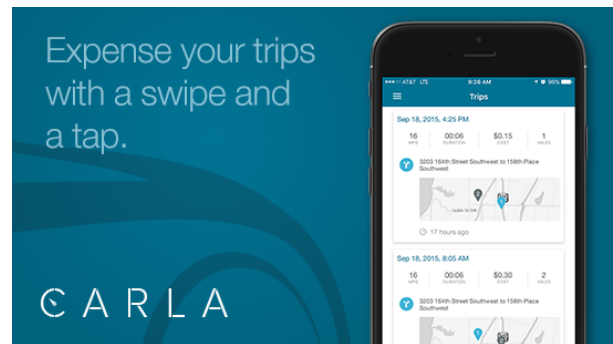

Canon works with Expense for Concur Standard and Expense for Concur Professional. It will be available soon in the Concur App Center under Apps for Me at www.Concur.com/AppCenter. For more information about Canon, visit their website at <http://global.canon/>.

Carla

By using the power of Mojio's Car Monitoring System and connecting to Concur Expense, Carla enables travelers to expense vehicle mileage without paper receipts or manual processes. Getting started is easy:

1. Purchase and download the Mojio MM1US Car Monitoring and Tracking Smart System. The 3G + GPS device plugs into any car's On Board Diagnostic (OBD-II) port. It installs in seconds and its 3G Cellular Connection ensures you and your car are always connected. Available on Amazon for \$149 and includes network access for the first 12 months.
2. Download the Carla app on your iPhone or Android mobile device, and sync it with your Mojio.
3. Connect Carla to your Concur Expense account. Your trip information – including mileage and costs – will be automatically sent to your account. It's that easy!

Carla works with Expense for Concur Standard and Expense for Concur Professional. It will be available soon in the Concur App Center under Apps for Me at www.Concur.com/AppCenter. For more information about Carla, visit their website at <http://www.nervous-energy.com>.

Didi

In under 4 years, DiDi grew from a taxi-hailing app into a multi-product platform offering mobile taxis, cars, chauffeured rides, bus, and test drive services to 300 million users with 14 million drivers in more than 400 cities in China. There are over 11 million Didi rides per day. DiDi occupies more than 87% of private car-hailing market share and 99% taxi-hailing market share in China, putting it above all other Chinese ride-hailing services.

To link your Concur account with DiDi account you just need to click “connect,” login to Didi, and choose your trip type.

From now on, say goodbye to paper receipts!

DiDi works with Expense for Concur Standard and Expense for Concur Professional. It will be available soon in the Concur App Center under Apps for Me at www.Concur.com/AppCenter. For more information about Didi, visit their website at <http://www.didichuxing.com/> (Chinese only).
