TwoGo

Travelers share rides in their Concur itineraries, seamlessly with TwoGo.

TwoGo is a mobile, cloud-based carpooling service, optimized to integrate smoothly into daily work routines and to match shared rides efficiently.

Matching is proactive and fully automated, meaning the least possible effort for you. No searching of lists. TwoGo automatically proposes potential matches for identifiable segments of your itineraries.

Linking your Concur account to TwoGo provides you with valuable options to ease travel, network with colleagues and share costs at the same time:

- **Specify extensive matching criteria**: You can tell TwoGo to be match on strict criteria including ride as driver/ passenger/ either, departure and arrival times, individually customized route, length of detour (minutes), proportion of the route to share, avoiding specific individuals, matching with a closed circle of colleagues, or (for women) restricting by gender.
- **Use social media or email to actively invite friends and colleagues** to share rides.
- **Be part of a secure and trusted community**: TwoGo checks the identity of its corporate users, which helps build up trust. Naturally, personal information is protected through highly secure measures and procedures in place.
- **Manage the rides the way that is most convenient for you** across the various integrated platforms: Use the electronic calendar, the web application at www.twogo.com, or native mobile clients (iPhone and Android).
- **Set flexible ride options**, including shuttles, rental and temp cars.
- **Use various ride patterns**, including roundtrips, recurring rides, and multiple ride intents for different days.
- **Delegate communication**: TwoGo seamlessly manages the entire communication chain, including defining the right meeting points for participants at the right time. No other communication among participants is necessary.

Get the most out of enterprise ride sharing. Connect TwoGo and your Concur Travel account.

TwoGo by SAP works with Travel for Concur Standard and Travel for Concur Professional. It will be available soon in the Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about TwoGo, visit their website at https://www.twogo.com/.
